

BOW HABITAT STATION 2021-22

Grade Four Program

Through inquiry and exploration, our programs encourage students' curiosity while supporting Alberta Education's Programs of Study.

WASTE IN OUR WORLD (FULL-DAY PROGRAM)

4.5 HOURS | Investigate the importance of microbes and how humans make and manage waste. Students explore water recycling and how over a million trout are raised in the fish hatchery at Bow Habitat Station.

Experienced environmental educators lead all programs. Teachers are sent an information package before they arrive to prepare them for their visit.

CUSTOMIZE YOUR ADVENTURE SELECT TWO ACTIVITIES

MARSH MYSTERIES

Indoors | Get to know some of Alberta's underwater critters as you investigate them under a microscope, and sketch the different life cycle stages.

FULL-DAY PROGRAM \$350

Persons with severe fish allergies are not recommended inside the Fish Hatchery. Closed shoes recommended (i.e. runners).

Prices are for classes of 30 students (maximum). Program cost includes admission to the Discovery Centre.

TRAIL TREKKING

Outdoors | Discover what it's like to be a naturalist as you trek through the Interpretive Wetlands, and learn about the creatures who make their home in this urban ecosystem.

**ADULT SUPERVISORS REQUIRED.
MANDATORY RATIO OF 1:6.**

WETLAND WONDERS AVAILABLE SEP, MAY, JUN

Outdoors | Have buckets of fun as you marsh dip in search of the invertebrates that live in the Ducks Unlimited Canada Marsh. Rubber boots recommended.
