

## FinS Feeding Schedule

This information is based on 65 fish. You will need to adjust the amount as fish die.

ATU's	Feed Amount (grams/week)	Feed Amount (grams/day)*	Approximate tsp/day	Feed**
550 – 620	3	0.6	= 1/8 tsp	#1
620 – 690	3	0.6	= 1/8 tsp	#1
690 – 760	4	0.8	> 1/8 tsp	#1
760 – 830	5	1	< 1/4 tsp	#1
830 – 900	6	1.2	= 1/4 tsp	#1
900 – 970	8	1.6	> 1/4 tsp	#1
970 – 1040	9	1.8	> 1/4 tsp	#2
1040 – 1110	11	2.2	< 1/2 tsp	#2
1110 – 1180	12	2.4	= 1/2 tsp	#2
1180 – 1250	14	2.8	> 1/2 tsp	#2
1250 – 1310	16	3.2	< 3/4 tsp	#3
1310 – 1380	19	3.8	= 3/4 tsp	#3
1380 – 1450	21	4.2	> 3/4 tsp	#3
1450 – 1520	24	4.8	= 1 tsp	#3
1520 – 1590	27	5.4	= 1 1/8 tsp	#3
1590 – 1660	29	5.8	> 1 1/8 tsp	#3

\*Based on your fish being fed 5 days a week (excluding weekends).

\*\*When switching food size, monitor your fish during feeding and ensure that they are all swallowing their food and not spitting it out. Spitting out their food is a sign that the new size is too big for them. If this is happening then switch back to the smaller size for another week before trying again.

**REMEMBER:** It is better to UNDER feed your fish than to over feed your fish!

## How to convert the feeding amount as fish pass away

Current number of fish x feed amount

-----  
65

1 gram= 1 ml  
1ml= 0.2 tsp
